

Seasonal Residents CHECKLIST

All seasonal residents have their own personal checklists for leaving their Heritage Cove properties, however the Heritage Cove Hurricane Committee asks all our property owners to assist us in preparing our community for the hurricane season.

- Bring **EVERYTHING** indoors that might blow around in a wind storm or hurricane.
- Dispose of food products that could spoil in refrigerators and freezers due to power outages.
- Install storm shutters or make arrangements to have them installed in the event of an emergency.
- Notify your Heritage Cove Street Captain with your planned departure and return. Make sure your contact information is up to date. (This info is only available to HC Hurricane Committee and HC office management.)

Below are suggestions for closing your properties for extended absences...

- Take precautions pertaining to water shut-offs.
- Enlist a trusted neighbor or hire a management company to check on you property
- Unplug electrical devices that do not need to run while you're away
